---

## SUMMARY

MCA student at CHRIST University with interests in Frontend Development, Artificial Intelligence. Published and presented an IEEE research paper on Explainable AI for Heart Disease Prediction. Skilled in HTML, CSS, JavaScript, React.js, and GSAP animations, Cloud Computing with AWS Cloud Foundations and Intel AI certifications.

## EDUCATIONAL BACKGROUND

- MCA: Christ University Delhi NCR, 2024-2026.
- BCA: HLM Group of Institute 2021-2024.

## SKILLS

|                        |                                                                  |
|------------------------|------------------------------------------------------------------|
| Programming Languages: | JavaScript, Python, C                                            |
| Frontend Development:  | HTML5, CSS3, JavaScript, React.js, GSAP                          |
| Cloud & AI:            | AWS Cloud Foundations, Artificial Intelligence, Machine Learning |
| Tools & Platforms:     | Git, GitHub, VS Code                                             |
| Soft Skills:           | Problem Solving, Team Collaboration, Communication               |

## RESEARCH PUBLICATION

Explainable AI for Heart Disease Prediction: A Clinical Transparency Route Experiment

- Published and presented at ICDISS 2025
- Published in IEEE Xplore
- Scopus Indexed Conference Publication
- DOI: 10.1109/ICDISS68238.2025.11320656
- Paper Link: <https://ieeexplore.ieee.org/document/11320656>

## PROJECTS

- RentX – Car & Bike Rental Platform
- Productivity Dashboard
- Reels UI Clone
- Fire Fighting Robot Car

## ADDITIONAL EDUCATION & CERTIFICATION

**AWS Academy Graduate** – AWS Academy Cloud Foundations (Issued Sept 2025).

**Intel® Unnati** – Artificial Intelligence (VIUP111), six-month course completion under the Intel Unnati Program, Academic Year 2024-25.

## AI TOOLS EXPOSURE

- Experienced with **ChatGPT**, **GitHub Copilot**, and **Google Gemini** for coding assistance, debugging, content generation, and productivity enhancement.
- Familiar with prompt engineering techniques to generate accurate and efficient AI-assisted solutions.
